## 노르망디 하우스

노르망디 하우스는 프랑스 보카즈에 위치하며, 산울타리에 둘러싸여 멀리 벨렘 숲을 바라보고 있다.

집은 50m² 넓이의 단일 결선 입방체인 소형 건물이다. 건물의 외부는 검은 색을 칠한 나무 패널로 마감되어 삼림지 환경과 잘 어우러진다. 각 벽면은 흰색으로 적절하게 강조된 창으로 꾸며졌으며, 정면은 높은 보온 성능을 가진 목재 캐노피로 이루어졌다.

이중 높이의 거실은 대형 퇴창을 통해 빛이 들어오고 남쪽을 향해 열려 있어 공간을 넓게 확장시킨다. 그리고 거실의 벽난로, 칸막이가 없는 부엌, 침실 등은 집에 편안한 인상을 심어준다. 침실은 2개이며, 그 중의 하나는 개방된 대형 로프 공간과 욕실로 사용된다.

도로에서 집으로 이르는 길에는 몇몇 나무들이 주변을 장식하고 있다.

The house is located in the Normandy Bocage, surrounded by hedgerows and looking out over Bellime Forest. Set on the first third of a plot of land 150m long, it stands in an isolated residential area in the Perche countryside.

A minimalist object, a line diagram cube with 50m² base on the ground, its black tinted wooden wall panelling responds to the woodland environment.

With just one opening on each side judiciously oriented and highlighted with white, the front is made up of a wooden frame lined with high performance thermal insulation.

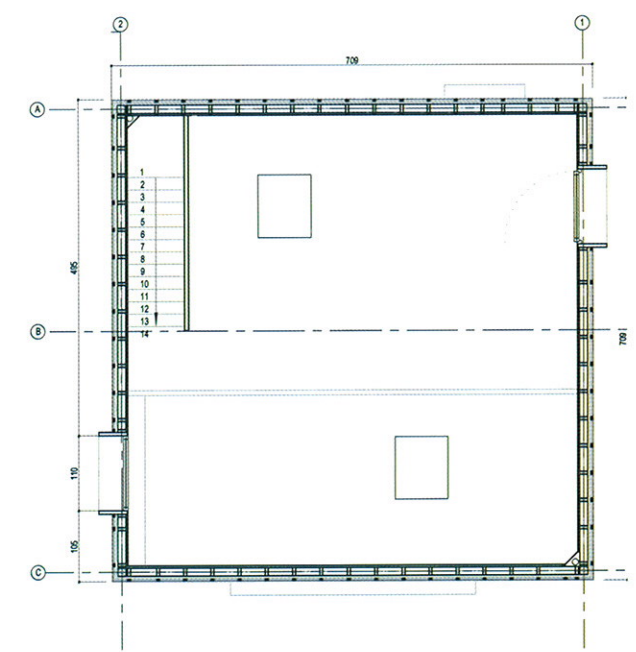

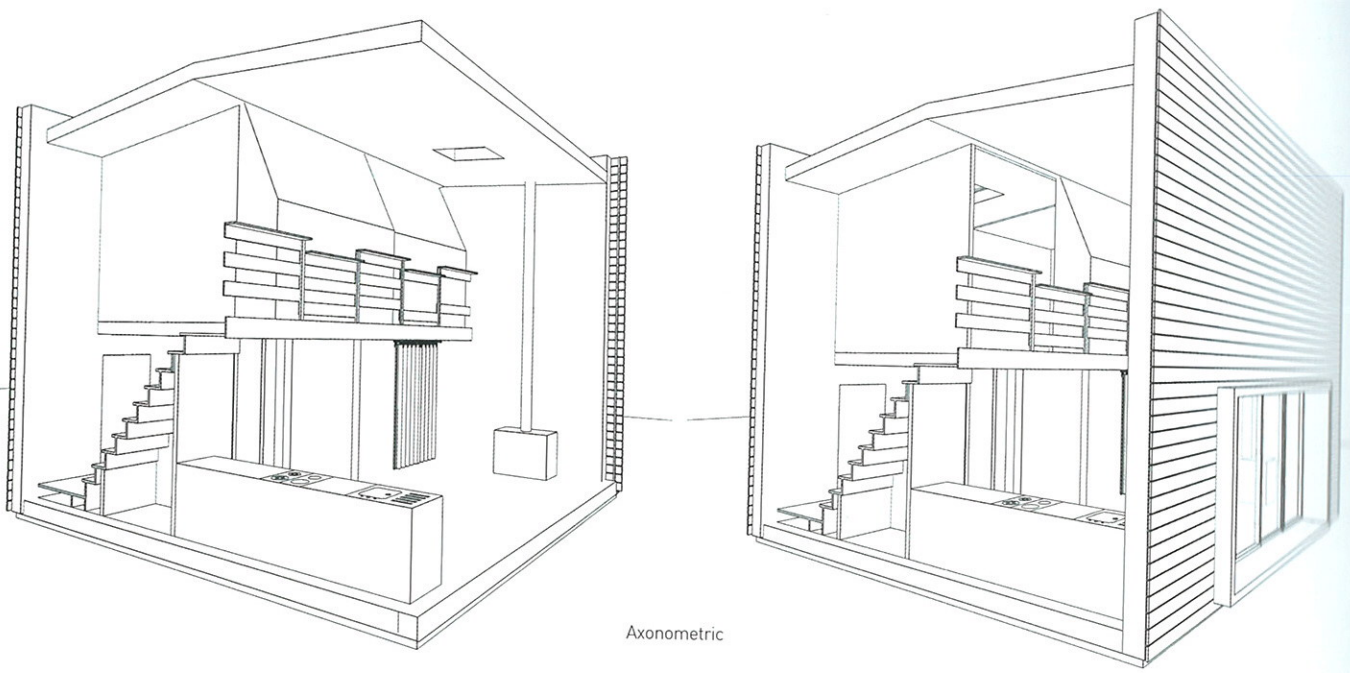

The double height in the living-room, also lit through a large bay window opening onto the south side, tends to expand the space.

The strict comfort needed is provided a living space comprising a living-room with fireplace, open-plan kitchen, bathroom and cupboard space; and a night-time area with two bedrooms, one treated as a large open loft space, and a bathroom. A few trees decorate the driveway and create a filter between the house and the lane outside.
